#### **FINANCIALS**

The OLB Group, Inc. and Subsidiaries Consolidated Statements of Operations

About Non-GAAP Measures The Company reports its financial results in compliance with U.S. generally accepted accounting principles ("GAAP"), but also provides additional non-GAAP measures of its operating results. The Company defines EBITDA as operating income (loss), before interest, taxes, depreciation and amortization. The Company defines adjusted EBITDA as EBITDA, as defined above, plus non-cash stock option expenses and certain nonrecurring items, such as costs incurred with completing acquisitions. These measures may not be comparable to similarly titled measures reported by other companies. Management believes the use of EBITDA and adjusted EBITDA is appropriate to enhance the understanding by the Company's investors of its historical performance through use of a metric that seeks to normalize earnings.
